

Food for health - EXPOsures

We will host a workshop called “Linking sustainable diets and functional foods from natural sources for human and planet health” with Dr. Serafini and Dr. Michael Green in our office in Via Giulia 130.

The event is part of “**EXPOsures: 10 food stories**”, a series of events that we are launching to celebrate our 10 years of activities and the EXPO 2015 in Milan.
